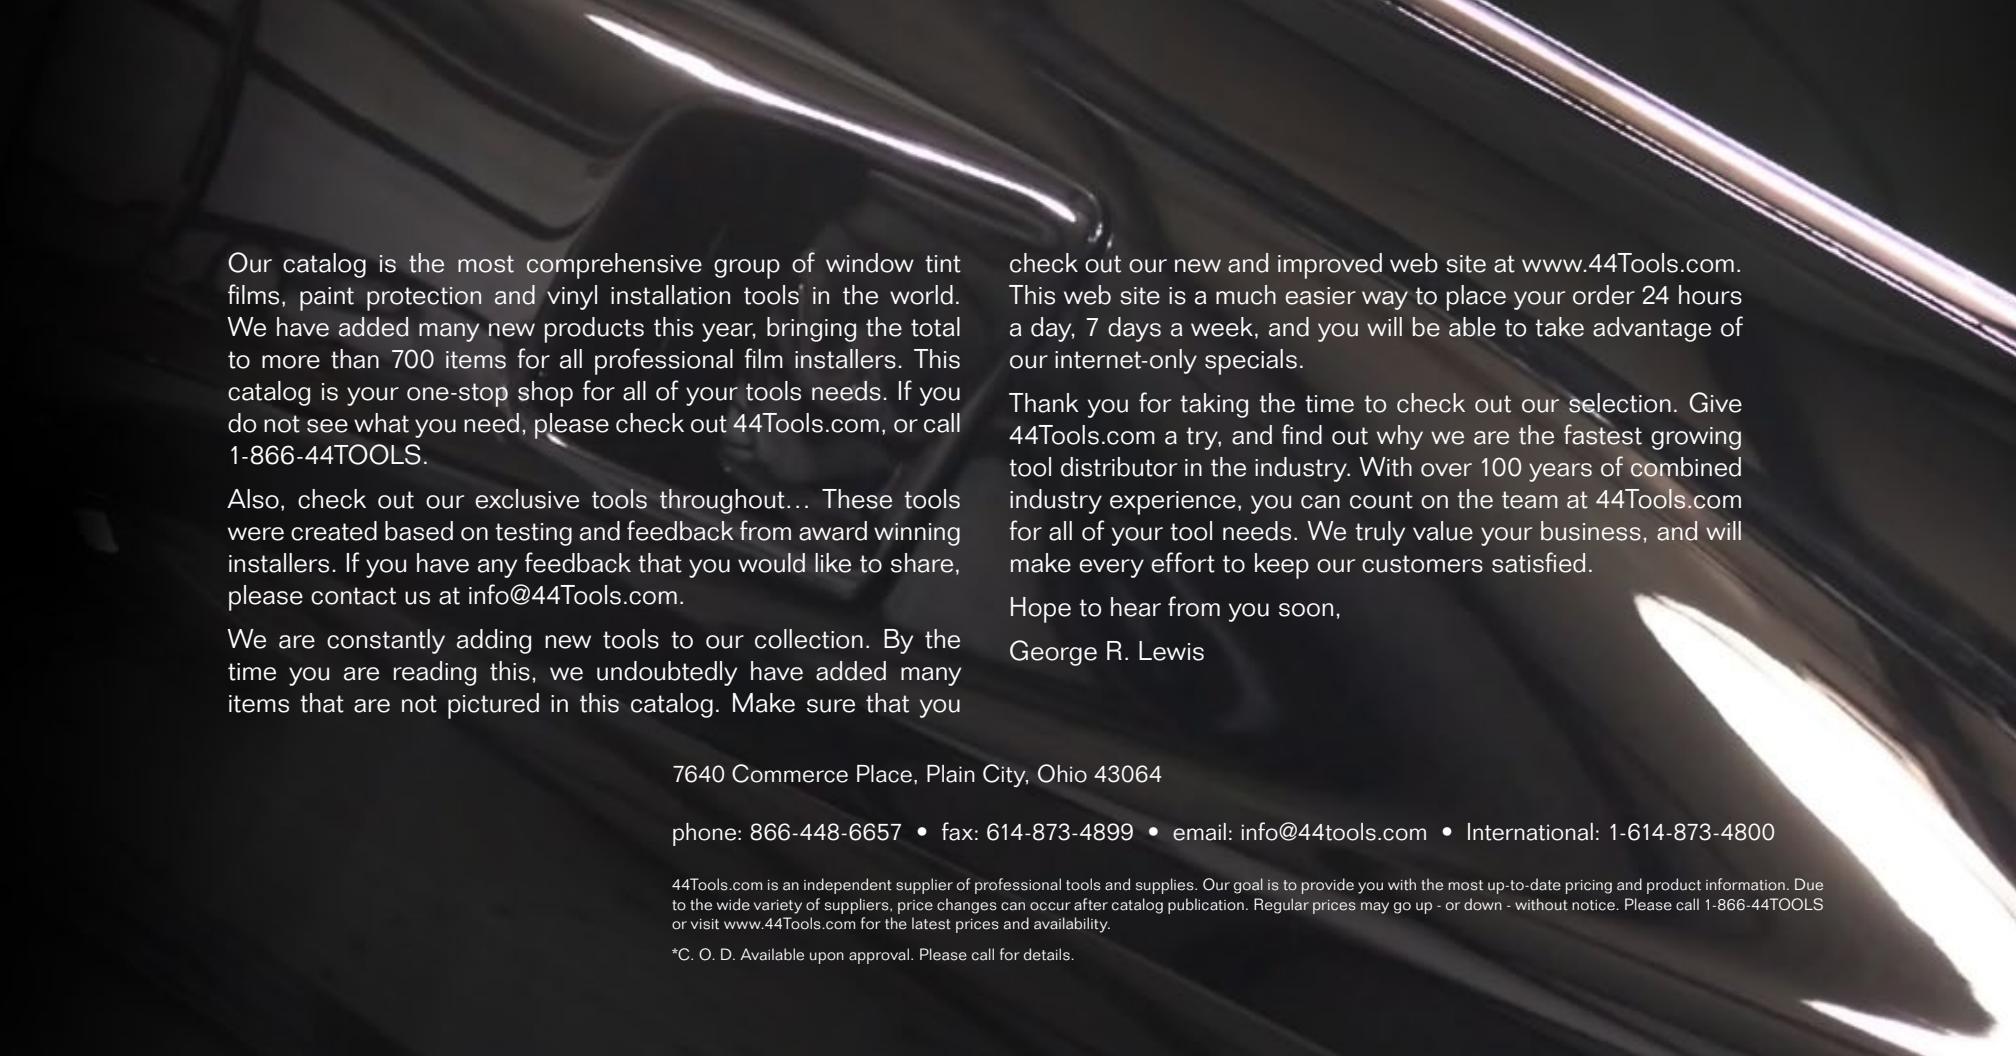
44TOOLS.COM
Paint Protection • Vinyl • Application Tools
for the Professional Film Installer



Our catalog is the most comprehensive group of window tint films, paint protection and vinyl installation tools in the world. We have added many new products this year, bringing the total to more than 700 items for all professional film installers. This catalog is your one-stop shop for all of your tools needs. If you do not see what you need, please check out 44Tools.com, or call 1-866-44TOOLS.

Also, check out our exclusive tools throughout… These tools were created based on testing and feedback from award winning installers. If you have any feedback that you would like to share, please contact us at info@44Tools.com.

We are constantly adding new tools to our collection. By the time you are reading this, we undoubtedly have added many items that are not pictured in this catalog. Make sure that you check out our new and improved web site at www.44Tools.com. This web site is a much easier way to place your order 24 hours a day, 7 days a week, and you will be able to take advantage of our internet-only specials.

Thank you for taking the time to check out our selection. Give 44Tools.com a try, and find out why we are the fastest growing tool distributor in the industry. With over 100 years of combined industry experience, you can count on the team at 44Tools.com for all of your tool needs. We truly value your business, and will make every effort to keep our customers satisfied.

Hope to hear from you soon,

George R. Lewis

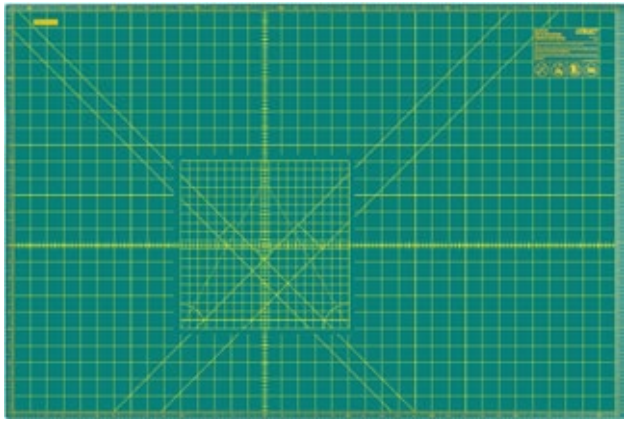
B129CB (50 blades)

9mm snap-off blades fit OLFA standard-duty, snap-off knives. Ideal for general crafts, cutting wallpaper, vinyl and paint protection applications, etc. 50 pack features 650 cutting edges.

Rotary Cutters & Blades



Self Healing Rotary Mat (24x36)
OS-RM-MG

1.5mm thick, double-sided, triple layer mats with a dark green base color. Yellow grid lines on one side for detailed cutting and solid green on the reverse for general cutting. Use only Rotary Cutters and Blades.

Heavy Duty Cutting Mat (24x36)
OS-HD-MG

3.0 mm thick, self-healing professional cutting mat designed for use with OLFA standard-duty cutters, heavy-duty cutters, art knives, rotary cutters and specialty cutters. Double-sided with green base color and gray grid lines on one side, solid green on opposite side.

60mm Ergonomic Rotary Cutter
OS-RTY-3/DX

Ergonomic design provides a comfortable and positive grip. Squeeze the handle to engage the blade. Lock the blade open for comfort or closed for safety. Designed to cut through multiple layers of fabric and difficult materials. Can be used for industrial applications. For both right and left-handed use.

45mm Rotary Cutter
OS-RTY-2X

The most popular size available, this cutter features a durable handle with a blade cover for safety. The cutter is a rolling razor blade used to cut materials into shapes, strips and pieces. Sharp and durable blade. For right- and left-handed use.

45mm Ergonomic Rotary Cutter
OS-RTY-2/DX

Perfect for all of your sewing and quilting needs. Cuts through more than 6 layers of fabric. Ergonomic handle reduces hand and wrist fatigue. Dual-action safety lock allows the blade to lock open for comfort or closed for safety. Tungsten carbide steel blade for sharpness and superior edge retention. For right- and left-handers.

RB 28mm Rotary Cutter Blades
B108 (5 pk)

RB 45mm Rotary Cutter Blades
B109 (5 pk)

RB 60mm Rotary Cutter Blades
B110 (5 pk)

Replacement blades for the OLFA Rotary Cutter.

28mm Rotary Cutter
OS-RTY-1/G

45mm Rotary Cutter
OS-RTY-2/G

Flex Guard Safety Knife
OS-SK-6

Automatic protection system engages when the blade loses contact with the cutting surface. Built-in safety protection is activated as soon as you start cutting and cannot be overridden. Rounded Safety Tip Blades further reduce the possibility of injury. For left-handed or right-handed users. Cuts to a depth of 0.39" (10mm). Uses OS-RSKB-2/10B and OS-RSKB-2/50B replacement blades.

Self Retracting Safety Knife
OS-SK-4

Slip resistant ergonomic handle. Spring activation feature that self retracts when the blade loses contact with the cutting surface… The blade only cuts what you want it to cut. For left or right handed users. Cuts to a uniform depth of 0.75" (19mm). Uses OS-SKB-2,OS-RSKB-2/10B, OS-RSKB-2/50B, and OS-HOB-2/5 replacement blades.

Automatic Self Retracting Knife
OS-SK-8

Heavy duty cutter with a spring blade the produces an audible click when it comes into contact with the material being cut. This ensures the blade automatically retracts the instant it loses contact with the material being cut. This happens even when the blade slide is engaged and cannot be overridden. Cuts to a depth of 0.59" (15mm). Uses SKB-8 replacement blades.

Compact Self Retracting Knife
OS-SK-7

Low profile blade slide reduces the amount of blade exposure when carrying inside a pocket. For left or right handed users. Cuts to a depth of 0.43" (11mm). Uses SKB-7 replacement blades.

Self Retracting Knife with Tape Slitter
OS-SK-9

The SK-9 features a comfortable handle with a gently curved blade slide for added comfort. A finger groove on the back of the knife helps secure your grip when cutting. A rounded metal tip on the back of the knife is great for slitting tape, being used as a screwdriver and staple remover. The SK-9 cuts to a depth of 0.75"; 19mm. Uses the SKB-2, RSKB and HOB replacement blades.

Shrink Wrap Cutter
OS-SK-10
Cuts shrink wrap, plastic strapping, stretch wrap, plastic sheeting, bubble wrap, leather, nylon, belting, sacks, bags, tape slitting. Uses the SKB-10/10B replacement blades.

OLO Carton Cutter
OS-OLO
OLO is designed with safety in mind. This is the Safety Carton Opener, which is an ergonomic and effective box cutter that shields its own blade for safety and efficiency.

Safety Knife Blades for SK-7
OS-SKB-7 (10 pk)
The Olfa Safety Knife blade SK-7 is designed for use in the SK-7 Knife.

Safety Knife Blades
OS-SKB-2/5B (5 pk)
OS-SKB-2/10B (10 pk)
OS-SKB-2/50B (50 pk)
A great multi-purpose blade that provides double sides for cutting. Fits OS-SK-4 and OS-SK-9.

Safety Hook Blades for SK-4
OS-HOB-2/5 (5PK)
OLFA Safety Hook Blades help protect your cutting surfaces while also reducing the chance of injuries. The hook blades are great for cutting shrink wrap, nylon straps, linoleum, roofing tiles and more. Fits OS-SK-4 and OS-SK-9.

Rounded Tip Safety Blades
OS-RSKB-2/10B (10pk)
OS-RSKB-2/50B (50pk)
The Olfa Rounded Tip Safety Blade helps reduce the chance of cuts and other injuries with a unique rounded tip. Fits OS-SK-4, OS-SK-6, and OS-SK-9.

Safety Knife Blades for SK-8
OS-SKB-8/10B (10 pk)
The Olfa Safety Knife blade SK-8 is designed for use in the SK-8 Knife.

SK-10 Blade 10 Pack
OS-SKB-10/10B (10pk)
The OS-SK-10 Utilizes the SKB-10/10B Pro Heavy-Duty Utility Blades.

OLFA Cutter Buckets
A1904 (40 SPC-1 Economy Cutters)
A1918-BKT (36 180 Multi-Purpose Cutters)
Value-priced cutters for home and office. Place by your register for an easy point-of-purchase sale.

Performax Glass Cleaner
M2748 (19 oz)
Ammonia-free foaming glass cleaner for shop use or retail. Safe for all window films.

Plexus Polish
M2740 (7 oz)
M2741 (13 oz)
Anti-static plastic polish. Leaves a protective sheen an any plastic surface. Safe for all window films.

Maximize your daily sales without raising your prices: Offer several "Point-of-Purchase" products which are related to the work that you just performed, and your customers willingly add to your bottom line. With newly tinted windows, customers almost always ask how they should clean them. Offer them Plexus, Performax Glass Cleaner or see page 44 to learn about customizing it to include your name and logo.

Touch Knives
OS-TK-4N (Navy Blue)
OS-TK-4R (Red)
OS-TK-4Y (Yellow)
OS-TK-4O (Olive)
Pocket-sized, multi-purpose keychain knives, featuring stainless steel slide lock blades.

Touch Knife Display (60 Knives)
OS-TK-4/60
A must for every store or shop owner seeking easy point-of-purchase sales. Preloaded with 15 of each color (red, navy, olive, yellow).

Aquapel Single Application
98994R
Perfect for selling Aquapel to the do-it-yourself customer. See more Aquapel details on page 25.

Heavy-Duty Cutting Pack
OLFAHDCPK

NT® Knives & Blades

NT A-500RP Knife

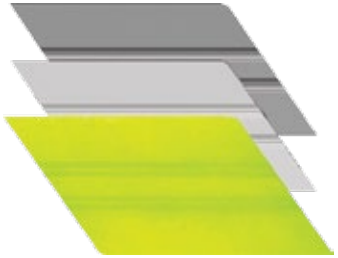
A2228H	**(grey handle)**
B228	**(28" blade without handle)**
A2209	**(9" blade with handle)**
A2204	**(4" blade with handle)**
B204	**(4" blade without handle)**

For use as a cleaning squeegee, or for PPF installation.

Power Strokes

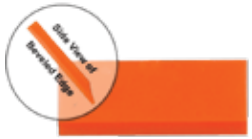
A2210RD	**Red (firm)**
A2210WHT	**White (firmer)**
A2210BL	**Blue (firmest)**
A2210YLW	**Yellow (most flexible)**



Quick Fix
A216 Platinum
A217 White
A218 Yellow

A cross between a Bondo and a Diamond Tip. Two ribs allow an easier grip to help force out more water. Angled design for tight fitting corners.

Orange Crush 8" Fusion Blade
B3704
For flat glass film projects. 8"x2" squeegee blade moves much more water per blade stroke. 93 Durometers with a beveled leading edge. Use with A1400F8 Handle.



Orange Crush 5" Fusion Blade
B3703
5"x2" squeegee blade is for automotive installations as well as flat glass or safety film installs. 93 Durometers with a beveled leading edge.

Orange Crush 5" Cropped Fusion Blade
B3703C
A cropped blade is a popular choice for maximum water removal from your automotive or flat glass installations. 5"x2" with beveled leading edge.

8" Blue Max Blade
B3700
93 Durometers. 8"x2" with beveled leading edge. Use in the A1400F8 Squeegee Handle.

5" Blue Max Blade
B3701
93 Durometers. 5"x2" with beveled leading edge.

5" Cropped Blue Max Blade
B3701C
A popular choice for maximum water removal from automotive or flat glass installations. 5"x2" with beveled leading edge.

5" Blue Max Blade (No Bevel)
B3701SN **5"x1.375"**
Can be flipped over for longer life.

Blue Max Blade (No Bevel)
B3701N **5"x2"**
Can be flipped over for longer life.

Clear Max Blade
B3702
A slightly softer version of the Blue Max (lower durometer).

5" Cropped Clear Max Blade
B3702C
A popular choice for maximum water removal from automotive installations. 5"x2" with beveled leading edge.

8" Fusion Squeegee Handle
A1400F8

5" Fusion Squeegee Handle
A1400F5

5" Short Fusion Squeegee Handle
A1400SF5
Fits Orange Fusion 5" Blade , Blue Max, and Clear Max blades.

Performax
A1400P Squeegee Handle
A1400G Grip
A heavy duty handle for thicker blades such as Blue Max, Clear Max and Orange Fusion. Threaded so that extensions can be screwed in for two-handed safety film installation.

Blue Max Insert

B195-6	6" insert
B195-8	8" insert

B192-6A	6" ang Power Blade
B192-8	8" blade for A2251-8
B192-8A	8" ang Power Blade

Unger Microfiber Cloth
B181

120" Blue Max Roll
B195-120
10 feet of Blue Max. Change often for best results.

Angled Power Squeegee

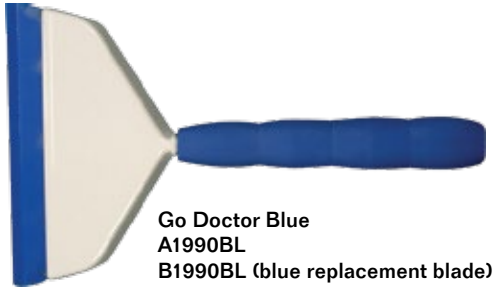
A2251-6A	6" squeegee
A2251-8A	8" squeegee

Power Squeegee without angle

A2251-6	6" squeegee
A2251-8	8" squeegee

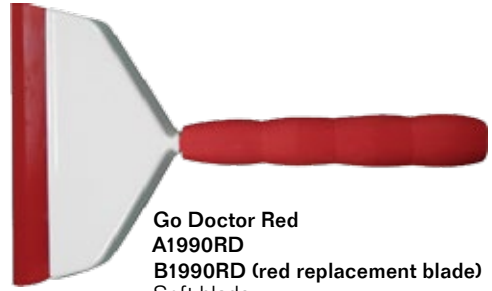
Unger ErgoTec Handle
A1400E
For Unger metal channels, which then can be fitted with either Pro Replacement Blades for cleaning or Blue Max Inserts for film installation.

Unger Pro Handle
A1400
For Unger metal channels, which then can be fitted with either Pro Replacement Blades for cleaning or Blue Max Inserts for film installation.



Go Doctor Blue
A1990BL
B1990BL (blue replacement blade)
Firm blade.

Go Doctor Yellow
A1990BY
B1990BY (yellow replacement blade)
Medium blade.



Go Doctor Red
A1990RD
B1990RD (red replacement blade)
Soft blade.

The Go Doctor series features an "i-beam" handle construction that fits comfortably in your hand. This design provides greater efficiency and less fatigue.

The Stroke Doctor
A215
Makes difficult-to-reach installations much easier to master. The cushioned grip and wide squeegee blade will help apply more pressure to remove more solution per stroke.

Unger Squeegee with Blue Max Blade
A1600BC
Cropped Blue Max squeegee blade.

Unger Handle with Clear Max Blade
A1600CC
Cropped Clear Max squeegee blade.

GM Rear-View Mirror Remover
A2305E
For mirrors held on by spring clip.

Ford Rear-View Mirror Remover
A2306E
Easily remove mirrors from Ford products.

Spring-Latch Rear-View Mirror Removal Tool
A2305FH
For Ford and Honda products.

Door Upholstery Remover
A1477
Large, comfortable handle.

Hook Pulling Tool
A2304
For pulling rubber gaskets back into place on vehicle doors.

Security Squeegee
A1403

Security Squeegee +
A1404

Telescoping Extension Pole
A1405
Can be screwed into a squeegee handle such as the Performax Handle (A1400P). Extends from 1' to 2' .

Thor's Hammer
A1402

Motus D-Handle
A1400D
Make your Performax or Pro handle two-handed with this tool. Great for security film installations when extra leverage is needed.

Dotrix (16"x 50' roll)
A1003-162
A thin black vinyl specifically designed to bond to the matrix areas of rear windows without the "silvered" appearance when viewed from the outside. Cover the matrix areas on up to 15-20 cars.

Gasket Wizard
A1478
A1478RBC **Replacement bungee cords**
Used to carefully pull back rub rails for easy film-to-glass installation below the rub rail.

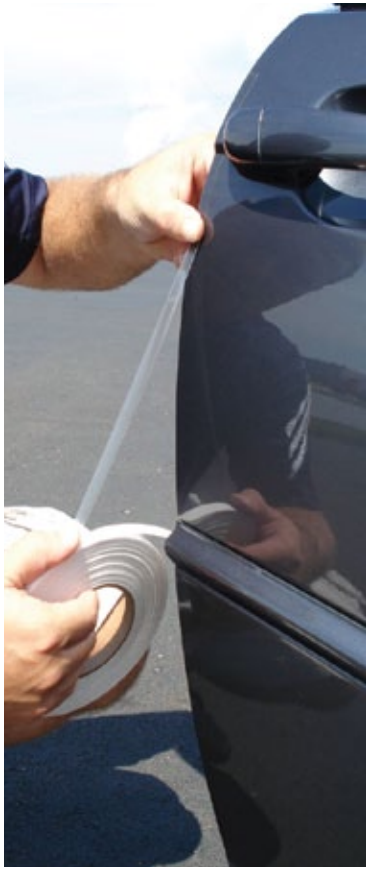
Black-Out Tape (150' roll)
A2501 .5"
A2502 1"
A2508 1.5"

White China Marker
A2500WH
Used for making templates on cars.

The Edge
A2400E
Budget priced handheld gasket tool for film installation.

Gray Window Trim Tape
A2507
Water resistant masking tape. Apply on felt around auto windows for cleaner installations. Strong adhesive, leaves no residue when removed.

Film Markers
A2500WT **Wide Tip**
A2500FT **Fine Tip**
Great helpers for covering up small light gaps.



Door Edge Guard
XPF-DEG **(3/8" x 100' roll)**
An 6 mil paint protection film designed to protect automotive finishes. Clear coated to make it virtually invisible, and resistant to yellowing and staining. One roll can yield up to 16 cars!

Red Window Film Tape
A1170 **(3/8" x 60' roll)**
For safely re-taping rolls or pieces of film without leaving an adhesive residue. Works well to assist in removing release liner from film.

Window Switch Tape
A1169 **(1000 count roll)**
Place a reminder on each window switch to help your customers remember to let the film cure. One saved re-do pays for the whole roll.

Felt Window Guide Tape (50' roll)
A1171FG **Black Felt Flock**
Prevents scratching of film from hard window guides. The fully weatherable tape offers long lasting protection.

XPEL Ultimate Paint Protection Film

XPF12U	**12"**	**(50 ft)**
XPF24U	**24"**	**(100 ft)**
XPF30U	**30"**	**(100 ft)**

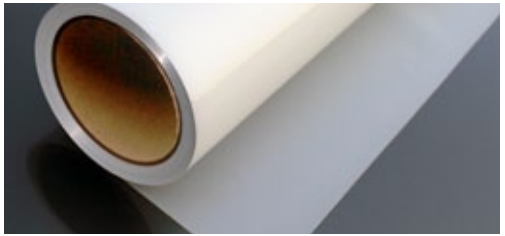
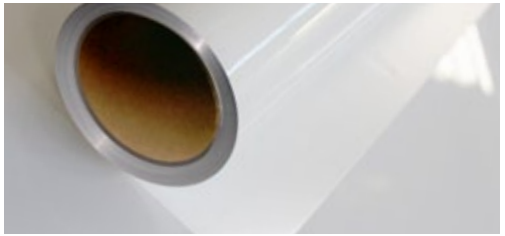
XPF60X	**60"**	**(50 ft)**



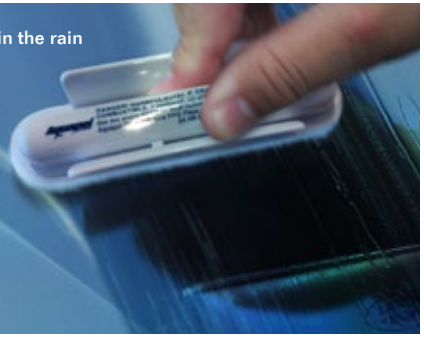


Become an Aquapel® Glass Treatment Installer

Aquapel is a long-lasting glass treatment that improves safety and visibility. Designed for professional windshields, side windows, rear windows, glass mirrors, or any other glass surface.

A terrific add-on item: Easy to apply and keeps customers coming back for more

- Remarkably improves vision in the rain
- Causes rain to bead up and roll right off
- Makes it easier to clear ice, snow and even dirt and bugs
- Reduces glare in the rain, especially at night
- Lasts for months in normal driving conditions



AQUAPEL APPLICATIONS

Aquapel Pro Kit
98994 (24 applications)

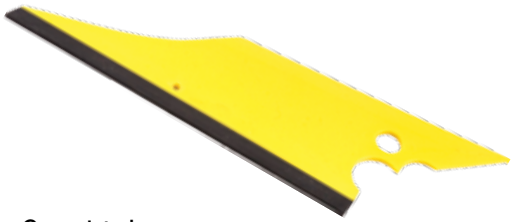
Aquapel Pre-Cleaner Towelettes
98994CT
Properly clean glass assures a long lasting glass treatment.

Aquapel Single Application
98994R
For the do-it-yourself customer (package shown).

AQUAPEL SALES TOOLS

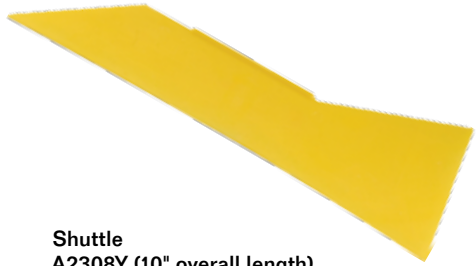
Sales Brochure (English, Spanish or French)
98994B-ENG (Pack of 25)
98994B-FRN (Pack of 25)
98994B-SPN (Pack of 25)

Demonstrational Shaker Bottle
98994SB
A simple demonstration tool to help promote Aquapel sales.

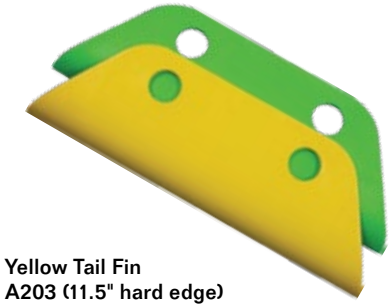


Conquistador
A202 (6.5" rubber edge)
New stiffer body. 6.5" rubber edge is molded to the body (not glued) and will not peel away.

Titan Tool
A220 (14.75" overall blade length)
A longer, stiffer version of the Conquistador gets into hard to reach back decks. Increased strength at the tip of the the tool pushes out more water than ever. The uniquely designed handles lift inner and upper door seals.



Shuttle
A2308Y (10" overall length)
Get behind tight window gaskets or pesky third break lights.



Yellow Tail Fin
A203 (11.5" hard edge)
For getting behind hard to reach third brake lights. Negative curve to keep constant pressure on the film and is harder than the Green Tail Fin.

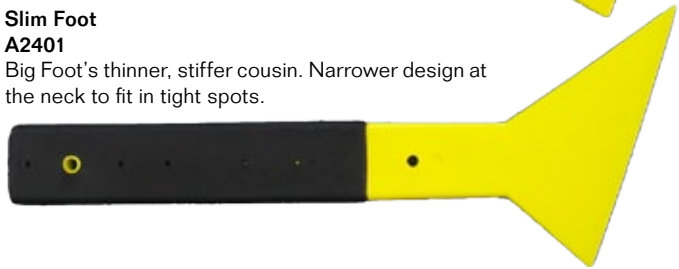
Green Tail Fin
A209 (11.5" soft edge)
Softer than the Yellow Tail Fin.

9.5" Red Devil
A2307 (9.5" overall length)
Very thin for getting behind those real tight third brake lights when nothing else will.

Red Devil Smoother
A2403 (8.5" wide edge)

Big Foot
A2404
15" overall length for those hard-to-reach back window installations. Soft rubber handle provides non-slip grip.

Slim Foot
A2401
Big Foot's thinner, stiffer cousin. Narrower design at the neck to fit in tight spots.

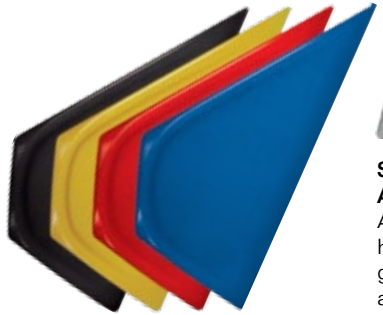


Black Little Foot
A2405BK **(Stiffest)**

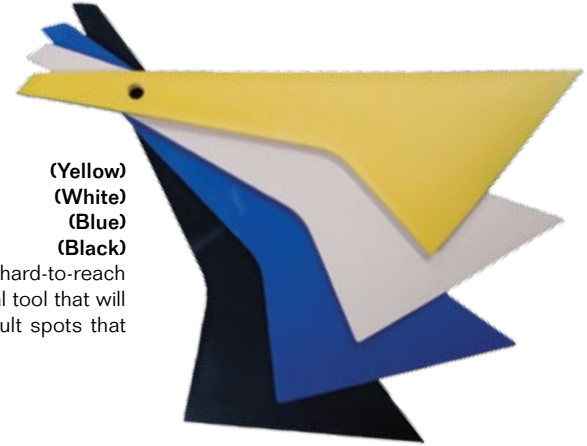
Mango Little Foot
A2405M **(Medium Stiff)**

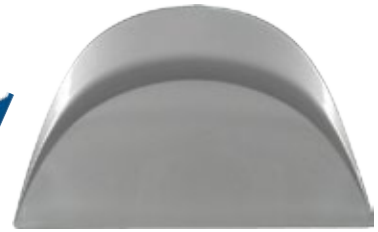
Red Little Foot
A2405R **(Medium Flexible)**

Blue Little Foot
A2405B **(Flexible)**



Quick Foot
A212 **(Yellow)**
A212W **(White)**
A212BL **(Blue)**
A212BK **(Black)**
9.5" overall length for those hard-to-reach installations. An economical tool that will help you reach those difficult spots that drive you crazy.





Smart Card Platinum
A2315
A contemporary version of the traditional hard card... 25% wider with a comfortable grip and thin edge. These are the new and improved teflon hard cards.

Smart Card Platinum with Felt Edge
A2315F
The Platinum Smart Card with felt is a great choice for installing graphics, wraps, decals and paint protection film.

Whale Tale Complete with Handle
A2406 (10" blade)

White Knight
A2310 (6" edge)
One of the stiffest hard cards available. Narrow handle fits in your hand while allowing you to reach into corners.

Spehar Squeegee Family
Malleable polyurethane squeegees for truly custom tools. With a heat gun, you can easily shape the squeegee material to create the perfect tool for your needs.

12" Clear Squeegee
A2512

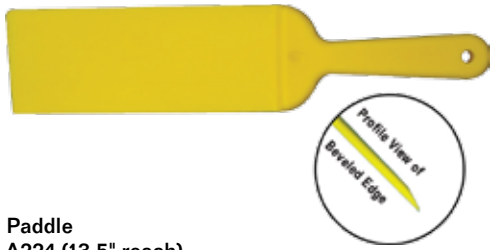
6" Clear Squeegee
A2506

4" Smoke Squeegee
A2504

3" Clear Squeegee
A2503

Spatula
A223 (12" reach)
The "Spatula" has a 3" wide blade with a reach 12" for those tough rear window installs. Made of a chemical resistant, flexible and virtually unbreakable nylon material.

Chisel
A2303CH (6.5" overall length)
This new tool has an wide installation tip for reaching behind gaskets while keeping your hands out of the way. The "Chisel" is 6 1/2" in overall length with approximately 3" of flexible blade.



Paddle
A224 (13.5" reach)
The "Paddle" boasts a 3" wide beveled blade with 13 1/2" of reach for those tough rear window installs. Made from a durable hard plastic that is still slightly flexible for maximum water removal.

Mother Tucker
A2303MT (12" overall length)
The "Mother Tucker" is a great new tucking tool with a 6" handle and a 6"x 1 3/4" usable blade. This tool is great for tucking film behind door gaskets, or for getting into those tight fitting, long reach areas.

Shank
A2303S (7" overall length)
This new tool has an offset installation tip for reaching behind gaskets while keeping your hands out of the way. It is 7" in overall length with approximately 3" of flexible blade. Made of lightweight, yet extremely durable plastic, it is great for tucking film behind those tight door gaskets.

Yellow Slammer
A2402Y (12" overall length)

Clear Slammer
A2402C (12" overall length)
Use the Slammer as an edge guide or installation tool. Handle provides increased leverage.

Scrapers & Blades

Single Edge Razor Blade
B122 (100 pk)
Heavy Duty Single Edge Razor Blade
B122HD (100pk)

S/S Single Edge Razor Blade
B122S (100 Blades)

GEM S/S Single Edge Razor Blade
B122SG (100 Blades)

Plastic Razor Blades
B143P (100 Blades)

Clip Scraper
A1475
Use B122 or hard card for hard to reach areas. Blades not included.

Double Edge Plastic Scraperite Razor Blades with Lil Gripper Holder
B144H 25-Pack
As seen in Window Film Magazine

Double Edge Plastic Scraperite Razor Blades
B144C 200 Edges
For cleaning rear glass effectively without damaging defroster lines. As seen in Window Film Magazine.

4" Hyde Scraper Blades
B128H (10 Blades)

4" Scraper Blades in Plastic Tube
B128 (10 Blades)

4" Scraper Blades
B128A (100 Blades)

4" Unger Scraper Blades
B135 (10 Blades)

4" Unger Scraper Blades Stainless
B135S (10 Blades)

3" Handy Scraper Blades
B111 (10 Blades)

3 1/4" Scraper Blade
B030 (5 US Blades)
B030H (5 Hyde Blades)

A. Unger Ergotec Scraper
A1507E (Uses B135 or B135S).

B. 3" Triumph Handy Scraper
A1505 Uses B111 scraper blades.

C. 3 1/4" Hyde Scraper
A029 Uses B030.

D. 4" Short Handle Scraper
A1500 Uses B128.

E. 4" Red Scraper w/ 9" Handle
A1502
Twist Lock for rapid blade changes (uses most 4" blades, such as B128, B128A, B135 or B135S).

F. Retractable Razor Blade
A1503 Uses B122 & B122S.

G. Blade Aide / Single Blade
A1506 Uses B122, B122S & B144.

H. All Way Neon Blade Aid
A1506AW

I. All Way Retractable Razor Scraper
A1503AW

J. Soft Grip Retractable Razor Scraper
A1503SG

Triumph Scrapers & Blades

6" Triumph Soft Grip Angled Scraper
A1504SGA
A more ergonomically designed grip than the basic hard plastic A1504. The angled head allows for additional leverage. Uses either B145 or B145S blades.

6" Triumph Soft Grip Scraper
A1504SG
Utilizes a more ergonomically designed grip than the basic hard plastic A1504. Uses either B145 or B145S blades.

6" Black Triumph Scraper
A1504
The original, basic scraper with a hard plastic grip. Uses either B145 or B145S blades.

6' Black Triumph Angled Scraper
A1504A
Features an angled head to allow for additional leverage. Uses either B145 or B145S blades.

6" Triumph Scraper Retractable
A1504R
Features a thumb switch to retract or expose the blade. Uses either B145 or B145S blades.

6" Red Heavy Duty Triumph Scraper
A1504H
A beefed-up version of the original basic scraper (A1504) with a hard plastic grip. Great for film removal. Uses only B145H blades.

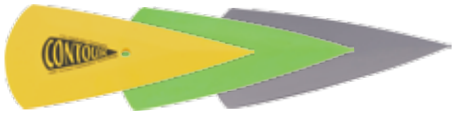
6" Triumph Cover
A1504COVER

6" Black Triumph Scraper Blade (25)
B145
6 inch Black Triumph Scraper Blade Replacements.

6" Black S/S Triumph Scraper Blade (25)
B145S
6 inch Black SS Triumph Scraper Replacement Blades.

6" Red Heavy Duty Triumph Scraper Blade (10)
B145H
Thicker and tougher than the B145 and the B145S blades.
Fits only in the A1504H Red Heavy Duty Scraper.

Automotive Bull Dozer
A207
Reach into the tightest rear deck area with ease. Plenty of reach and a rubber squeegee tip. A must have tool!



Yellow Contour
A204
A versatile tool for reaching out of the way places. One of our most popular tools since we brought it out three years ago.

Green Contour
A210
A softer version of the popular Yellow Contour. Great for paint protection installs.

Platinum Contour
A219
The same great installation benefits as the Yellow Contour only stiffer, allowing you to push more water out. The unique tear drop shape gets into hard to reach corners.

Side Swiper
A200 **Handle only**
A201 **Blade included**
One of our top tools. A super stiff tool for automotive tint installation, great for hard to reach back window installations. Sold with or without the 6" Blue Max Blade.

Green Diamond Tip
A2309G
The softest Diamond Tip. 20° angle corners make it great for tight areas.

Red Diamond Tip
A2309R
The next to softest Diamond Tip. 20° angle corners make it great for tight areas.

Yellow Diamond Tip
A2309Y
The second hardest Diamond Tip. 20° angle corners make it great for tight areas.

White Diamond Tip
A2309W
The hardest Diamond Tip. 20° angle corners make it great for tight areas.

Flat Glass Bull Dozer
A208
Reach difficult areas on a flat glass install. Longer ribs increase the stiffness. The soft rubber tip on the end ensures you won't end up with any scratches on the film.

Smart Cardz Mini Yellow
A213
Smart Cardz Mini with Felt
A213F
Great for applying clear bra into door handle cups as well as chasing away fingers on any application.

Smart Cardz
A2315M
A contemporary version of the traditional hard card. 25% wider with a comfortable grip and thin edge. These are the new and improved teflon hard cards.

Smart Cardz with Felt
A2315MF
Includes a soft felt edge for delicate film installations.

Rebel
A218M
A cross between Bondo and Diamond Tip tools.

Rebel with Felt
A218MF
A cross between Bondo, Diamond Tip, and Felt Edge tools.

Little Foot
A2405M

Little Foot with Felt
A2405MF
Includes a soft felt edge for delicate film applications.

Bump Card
A2300M
Softer squeegeed edge helps prevent sctratching delicate films. Glide additives for greater flexibility.

Bump with Felt
A2300MF
A softer felt edge for more delicate films like vinyl. Greater flexibility with a butterfly wrapped felt edge.

HEXIS® Vinyl

HEXIS is a leading European manufacturer of self-adhesive vinyl (PVC) films and digital printing media for large format inkjet printing used for sign making and vehicle marking.

The product is specially designed for full vehicle wraps and vehicle markings in general. Due to its thickness it preserves its color even under strong deformation. It is convenient and effortless to apply and to remove. The HX20000 is easy to apply due to its structured adhesive that facilitates air egress.

The new HX30000 consists of a multilayer cast vinyl film and a release liner with HEX'PRESS adhesive. This film is specially designed for markings on vehicles (cars, motorcycles, boats, etc.) and designer objects (furniture, mobile phones, laptops etc.).

If you don't see a color that you're looking for, please call us: We can get it for you!

Performax Felt Squeegee
A2390 (2.75" X 4" X .375")

Knifeless Tape can be used to cut graphic film without using a knife. Trim anywhere and never worry about cutting a vehicle again!

Finish Line Knifeless Tape
A2510FL 164'

Bridge Line Knifeless Tape
A2510BL 164'
For specific use over door gaps.

Design Line Knifeless Tape
A2510DL 164'
Excellent for creating perfectly cut designs and stripes. Stretches to follow curves.

Infrared Wrap Heater
A2911
Quickly "post-heat" larger areas of vinyl to keep it from shrinking back to its original size after it cools and relaxes.

Infrared Replacement Heating Element
A2911HE

Magnetic 4" Bondo Card
A2300MAG
It looks like a regular black bondo card… but has a set of strong magnets inside.

Wrap Glove
B2604
Doesn't shed or transfer your skins oils. Can be used to handle even the adhesive side of digital media and wrap films.

6 Pack Vinyl Wrap Strip Magnets
A610SM6
Keep graphics firmly in place, with 25 lbs. of pull. Move quickly and easily reposition your graphics.

Brass Nozzle
A1100BN
More durable than plastic nozzles for stainless tanks.

In Line Filter
A1213
Use in-line with any pressurized sprayer with a hose.

Poly Shut-Off Nozzle
A1212N
Compression sprayer poly shut-off nozzle.

Poly Shut-Off Valve
A1212
Polyethylene shut off valve assembly for use on any sprayer with a hose. Requires A1212N-Fits 3/8" hose.

3 Gallon Sprayer Body Complete
B231
Palm triggered sprayer body with filter. Fits most sprayers with a hose.

3 and 5 Gallon Stainless Steel Pressurized Sprayer Nozzle
A1105N
Fits 1/4" hose.

A1103

A1105

A1105R

Stainless Steel Pressurized Sprayer
A1103 (New 3 Gallon Tank)
A1105 (New 5 Gallon Tank)

A1211

Sprayer Bottles
A1304 (16 oz. bottle)
A1305 (32 oz. bottle)

32 oz. Spraymaster
A1307
Chemically resistant with a high output adjustable sprayer. Easily labeled with a permanent marker. 5-year guarantee.

Trigger Sprayer Head
B406
Fits A1304 & A1305.

Trigger Sprayer Head
B406T
A larger, ergonomic trigger.
Fits A1304 & A1305.

Spraymaster Spray Nozzle
A1307T
Fits A1304, A1305, A1307

Mercury Pro+ Sprayer
A1308
Sprays twice for each squeeze of the trigger. Twice as much fluid with less hand fatigue.

Mercury Pro+ 300 Sprayer
A1308-300
New 360° feature allows continual spray at angles, sideways or even upside down. Great for PPF installation and for detailing.

B171T

B171WB

B171R

B171G

B171

B171TB

Blue Scrub Pad (Glass Safe)
B171B (3" x 5")
More aggressive than white, but still glass safe.

White Scrub Pad (Glass Safe)
B171W

White Scrub Pad (Glass Safe)
B171T
Thicker than white pad shown above.

Red Scrub Pad
B171R
Very coarse pad for Dot Matrix prep ONLY!
*Will scratch glass.

Grey Scub Pad
B171G
Very coarse pad for Dot Matrix prep ONLY!
*Will scratch glass.

Nylon Cleaning Sponge
B171
Scrub pad on one side and sponge on the other.

Basic White Scrub Pad
B171WB
Generic version of our B171W scrub pads. These basic pads are economical and safe on glass.

Basic Thick White Scrub Pad
B171TB
Similar to the B171T scrub pads. These basic pads are economical and safe on glass.

Chore Boy Copper Scrub Pad
CM24
For Dot Matrix prep ONLY!
*Will scratch glass.

Low Lint Continuous Roll Paper Towels
B183
Virtually lint free, for use when tinting or detailing. Use from a dispenser as a center pull or just unroll from the outer edge.

Super Prep Towel
B184
A durable high quality paper towel for window film installations. Very absorbent and practically lint free. Tough enough to reuse yet still soft enough for cleaning windows. Can also be used for covering hard cards when you bump your edges dry.

The Scrubber
B176
For cleaning rear deck area and other hard to reach areas. Works with a trimmed down White Scrub Pad, B171W.

Dirt-Off w/X-100 Concentrate
M1133 (1 quart)
Concentrated cleaning solution used before film application. Mounting solution for CDF adhesive films (excluding bronze and Low-E)

Film-On Concentrate
M1135 (1 quart)
Concentrated pure mounting solution designed specifically for film. Will not degrade adhesive like citrus base liquid soaps.

Rapid Clear
M2737 (32 ounce)
Silicone polish safe for window film and leaves it looking brand new.

Rapid Tac II
M2736 (30 oz)
Adhesive promoter designed to help film lay down on dot matrix. Also great on vinyl.

Pump Dispenser For Dirt-Off
M1133P
Pump Dispenser For Film-On
M1135P
These pump dispensers for Dirt-Off and Film-On are finally available again. Makes measuring much easier and much more accurate.

NOTE:
Chemicals and aerosols may have shipping restrictions. Please call for details.

Slip Up Concentrate
M2756 (1 gallon)
Cleaning and installation are a snap with this slip agent.

Silicone Polish
M2750 (1 gallon)
Window film safe silicone polish.

X-100 Concentrate
M2715 (1 gallon)
Slip agent for CDF adhesive films (excluding bronze and Low-E)

Matrix Magic
M2739
Easy to use adhesive gives a bit more stick on dot matrix. Fills in gaps left between dots and film.

Professional Chemicals

General Purpose Adhesive Remover
M2749 (15 oz)
Remove window film and paint protection adhesive. Safe for use on factory finish automotive paint.

Plexus Polish
M2740 (7 ounce)
M2741 (13 ounce)
Anti-static plastic polish. Safe for all window films. Leaves behind a protective sheen on any plastic surface.

Hi-Sheen Cleaner
M27450 (19 ounce)
Safe, all-purpose glass cleaner and effective adhesive remover.
NOTE: Do not use this to clean tinted windows.

Dot Devil
M2757 (1 qt)
Cleaning agent formulated to chemically soften matrix areas to aid in preparation of film.

NOTE:
Chemicals and aerosols may have shipping restrictions. Please call for details.

Rapid Remover
M2738 (32 oz)
M2734 (1 gal)
Rapid Remover is a fast acting adhesive remover that works in 60 seconds and requires no scraping.

Simple Pink Adhesive Remover
M2725 (1 gal)
Popular, pink adhesive remover. Effective for most adhesive removal situations.

Tint-Off
M2751G (1 gal)
Safe, non-toxic window film remover.

Tint-Off
M2751 (1 qt)
Safe, non-toxic window film remover.

TintSlime
M1134 1 gal
M1132 1 qt
The ultimate slip solution for window film installations.
Eco-friendly, biodegradable, and tint-safe.
Developed for tinters, by tinters.

Rapid Prep
M2758
125 oz Jug

Performax Installation Gel
M1130 1 gal
Premixed paint protection installation aid for professional paint protection installers.

ATR Adhesive Solution
M2727
The most powerful adhesive remover in its class. Dissolves adhesive on contact.

Performax Glass Cleaner
M2748 (19 oz)
Ammonia-free foaming glass cleaner for shop use or retail. Safe for all window films.

Custom Label Glass Cleaner Program
M2747 (20 Cases: 240 19 oz cans)

Put your name on the can and money in your wallet! Show your professionalism by offering your customers this high quality window tint safe glass cleaner. Your company name and logo can be in the hands of every one of your customers.

Great add-on sales
Tell your customers this is what they need to use to clean their tinted windows safely. Double or triple your money on every can.

Super giveaway item
Instead of dropping your prices, offer a can for free ($5.99 value) with every job or upgrade.

Repeat customers
A reason for your customers to come back to your shop.

Your new business card
Give good prospects a can instead of a business card. Customers are more likely to keep something that they can use and do business with someone who gives them something for free!

Minimum order 20 cases of 12 (240 cans total). Typical lead time on the first order is 3-4 weeks. Subsequent orders ship in approximately 10 days. Please call for details. This product is available in smaller quantities by ordering the Performax glass cleaner (part # M2748).

PLEASE NOTE: This product is permitted to be shipped via ground services only.

Filmhandler

F101-72	**72" Filmhandler**
F101-60	**60" Filmhandler**
F101-61	**Repair Kit**
F101-VRA	**Filmhandler Vertical Rule Assembly**

Minimize waste and save time on all of your flat glass installations with the original Filmhandler.

Filmhandler - Accessories

F101-28	**3" Roller Assembly Pair**
F101-33	**3" Cutter Shim - 1/8" shim ea**
F101-32	**3" Cutter Shim - 1/4" shim ea**
F101-30	**6" Roller Assembly Pair**
F101-35	**6" Cutter Shim - 1/8" shim ea**

F101-27	**Cutter Head Assembly**
F101-26	**Cutter Blades - 20 Blades**

*Oversized items, additional shipping charges may apply.

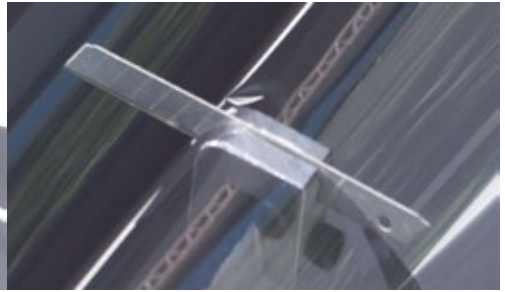
Ceramic Safety Film Cutter
A601
Used for pre-cutting heavy gauge safety films along a cutting-table edge. V-notch ceramic blades cut film perfectly, rapidly in both directions, with no edge burrs or flaws.

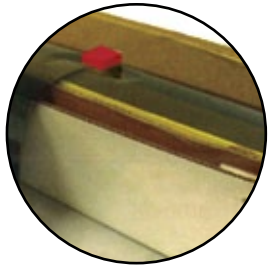
Border Edge Cutter

A1909-16	**1/16" Border Edge Cutter**
A1909-8	**1/8" Border Edge Cutter**

Use with a 1" razor blade to slide across the top of side glass to provide a professional micro-edge. Choose 1/8" or 1/16" micro edge.

Box Mounted Film Slitter
A0104
Make any film box into an economic film cutter.





CLEANCUT BOX SLITTER

This system is designed to get film up off the floor and also to hold the box when you pull your film out. A basic alternative to more expensive and heavy film handlers. Each item is sold separately so you can choose your desired length of cutoff bar and the number of cutter head assemblies required.

1. Place the tray on the top of the ladder to locate where the mounting hole will be.
2. Drill out the mounting hole in the top of the ladder.
3. Use eyeball bolt (not included). Set the two nuts at the stop distance on the eyeball bolt. Tighten until the top of the bolt pops through the mounting hole.
4. Place the box with the clean cut bar facing you. You are now ready to pull film.

Clean Cut Wall Mount
CCWM

Clean Cut Box Wedge
CCBW (pair)

Digital BTU Solar Power Meter
MTR-SP1065
Impress your customer by showing them how well your product can reduce the heat of solar energy that will enter their home. When used with our Glass and Film Sales Demonstration Lamp, you can perform effective indoor demonstrations for your customer. High performance window films are extremely dynamic in this demonstration.

Solar Power & Transmission Meter
MTR-SP2065
A powerful sales aid for demonstrating the solar performance of windows and film. All of the benefits of the Solar Power Meter, but with the big advantage of the ability to measure actual solar transmission percentages. This meter works directly with the sun or with the Glass & Film Sales Demonstration Lamp. The Solar Power & Transmission Meter allows you to sell your customers up to high-end products.

Visible Light
Transmission & Power Meter
MTR-VP1165
The Visible Light Transmission & Power Meter can spice up your sales presentations by illustrating the tinting performance of your products. Measure the true visible light transmission (VLT) of your window or film, and use for tinted glass, coatings, film, or automotive applications. Show your customer how your film can reduce the unwanted glare and fading caused by visible light.

UV Transmission & Power Meter
MTR-UV1365
Demonstrate to your customers how well your product blocks the damaging UV rays of the sun. When used with the UV Demonstration Lamp, you can conduct simple sales presentations safely indoors in front of your customer. A simple approach to promote a significant feature.

UV Transmission Meter
MTR-UV1265
A low cost alternative to our UV Transmission and Power Meter, this Meter is designed specifically for sales demonstrations. Demonstrate to your customers how well your product blocks the damaging UV rays of the sun. When used with the UV Demonstration Lamp, you can conduct simple sales presentations safely indoors in front of your customer.

ETEKT+ Low E Coating Detector
MTR-AE1601
The industry standard for detecting the invisible Low E coatings sealed inside windows as well as on single pieces of glass. Identify if a coating exists on surface 1, 2 or 3, and also identify windows with no Low E coatings (clear glass). This rugged portable device is powered by a 9 volt alkaline battery (included).

Solar / UV Meter Kit (pictured)
MTR-SK1230+

- HL1040 Infrared Heat Lamp Assembly
- UV1265 UV Transmission Meter
- UV1390 UV Demonstration Lamp
- Soft-shell carrying case

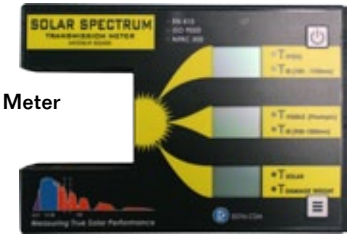
Soft-Shell Case
MTR-CC1231
This empty case is available so you can put together your own personalized sales kit.

ThermoHawk 200
MTR-Q31-TH200
An inexpensive way to measure surface temperature.



Solar Spectrum Transmission Meter
MTR-SS2450

MIG Manual IG Thickness Gauge
MTR-MG1500
Measures the thickness of glass and air spaces of assembled and installed windows. Handy for measuring triple-glazed windows and laminated glass. With a little training, it can be used to determine the presence of reflective coatings such as soft-coat Low E, mirrored surfaces, and even self-clean coatings.

Spectrum Detective Premier Sales Kit
MTR-SK1540 (pictured)

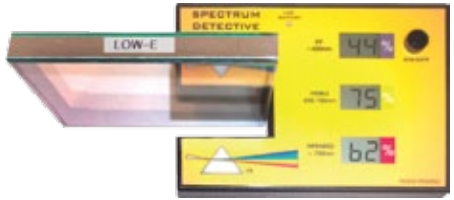
- RAYMT4 Temperature Gun with Laser Pointer
- HL 1040 Infrared Heat Lamp
- GSI 331 Glass and IG Sample Kit
- Soft-Shell Black Canvas Carrying Case

Spectrum Detective Sales Kit
MTR-SK1530 (not pictured)

- SD2400 Energy Transmission Meter
- GSI 331 Glass and IG Sample Kit
- Soft-Shell Black Canvas Carrying Case



Glass not included.

Spectrum Detective
MTR-SD2400
The Spectrum Detective is able to simultaneously display UV, Visible and Infrared transmission values. There are no additional light sources or power cords necessary, and no adjustments to make with this self contained unit. Just slide the glass sample into the opening and watch as the results appear on the display.

Tint Meter Model 100
MTR-LL100
Measures light transmission on roll-down windows. Just slide the meter over the top of the window for the tint percentage. Easy to operate and very accurate with auto on/off switch.

Tint Meter Model 200
MTR-LL200
Measures light transmission on any window. Two piece design with suction cups to hold meter in place so that even the back window can be easily tested.

Glass not included.

Beamsplitter Pro
Energy Transmission Meter
MTR-PR3400
BeamsplitterPro, Energy Transmission Meter is able to simultaneously display UV, Visible and Infrared transmission values. Simply plug in the power cord and slide the glass sample into the opening and watch the resulting performance data appear on the display. Perform live demonstrations of the performance of your Energy Efficient window film products.

PR340 Accessory Beamsplitter Pro powercord extension
MTR-PR3420

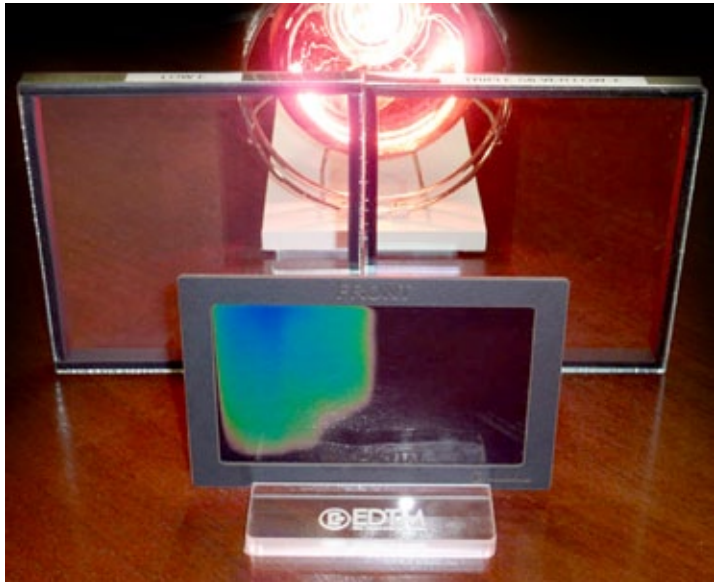
Strengthened Glass Detector w/ Thickness
MTR-SG2700
This detector will alert you to when glass has been strengthened. It can detect on single or multiple panes of glass. The unit is powered by a 9-volt battery and has a helpful auto power down feature.

Raytek Non-Contact Thermometer
MTR-L1340 with laser pointer
Digital non-contact thermometers help demonstrate the need for high performance window films. For in-home demonstrations, you can measure the extreme temperature of furnishings near a window to illustrate the poor performance of their windows without film. Includes a laser pointer to better illustrate the exact surface location being tested.

Non Contact Thermometer
MTR-MT1575 with laser pointer
An extremely effective and convincing sales tool. Easily switches to display in either Celsius or Fahrenheit. Includes a laser pointer to better illustrate the exact surface location being tested.

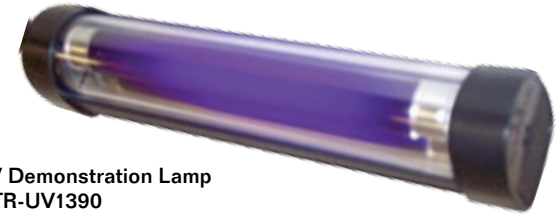
Glass-Check Pro
MTR-GC3000
The Glass-Chek PRO has a number of advantages over previous models.

- Measure glass, air space and overall IG thickness of triple pane windows - all at the single push of a button.
- Fully equipped Low-E coating detector capable of locating a Low E coating on a double pane window from a single side.



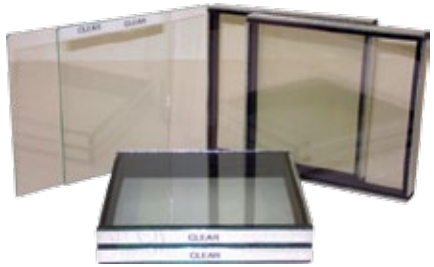
Heat Sheet Temperature Card
MTR-HS2050
Heat sensitive demo card changes color when it is exposed to heat. Reusable.

Acrylic Stand for Heat Sheet
MTR-HS2052
4" x 2" base that holds the Heat Sheet in front of your heat lamp and glass samples.



UV Demonstration Lamp
MTR-UV1390
MTR-UV1291 **(Extra Bulb)**
The UV Demonstration Lamp allows you to conduct dynamic sales presentations indoors for your customers. The lamp is battery operated (4 AA-included) and outputs true UV energy centered at 365nm.

Film Demonstration Lamp
MTR-HL1040 **(Lamp and Bulb)**
MTR-HL1045 **(Extra Bulb)**



Glass & IG Sample Set
MTR-GS1331
Includes: two clear single panes of glass, two clear IG windows and two Low E IG windows. The glass standards can be used to demonstrate solar and UV transmission performance.

Plexus Polish
M2740 **7 ounces**
M2741 **13 ounces**

Developed for use in the aviation industry specifically for cleaning and protecting aircraft windshields and painted surfaces, Plexus has became more and more popular for use on a limitless variety of plastic surfaces. Today it is recognized as the most effective plastic cleaner, protectant and polisher on the market.

Plexus protects plastic more effectively than ordinary cleaners. Because Plexus seals the pores in plastic surfaces with a micro-thin layer of shiny, protective wax, plastic becomes resistant to debris, oil, scratches, and eventual yellowing. Its anti-static properties repel dust and lint.

New plastic is most vulnerable to contaminants and damage, so using Plexus early on can help in the long-term protection and maintenance of plastic. Plexus gives a cleaner, more lustrous finish than ordinary cleaners. Instead, the finish it leaves is shiny, brilliant, and clear with no smears or smudges. Plexus makes colored plastics vibrant, clear plastic virtually transparent, and leaves plastic paints gleaming like new.

Use Plexus for household countertops and appliances. Keep your refrigerator, dishwasher, ovens, even your microwave shinier and cleaner.

On your car, motorcycle and boat there are literally dozens of places to use Plexus. Use it on your vinyl windows, hatch covers, mirrors, laminated surfaces… just about any place you would normally use window cleaner.

Super Prep Towel
B184

A great high quality paper towel for window film installations. These towels are very absorbent and practically lint free. You will be amazed at how durable these towels are; tough enough to reuse yet still soft enough to be the perfect choice for cleaning windows.

Low Lint Continuous Roll Paper Towels
B183

Try these economy paper towels instead of the "linty" grocery store paper towels. These are VIRTUALLY LINT FREE, so they are great for use when tinting or detailing. You can use them from a dispenser as a center pull or just unroll from the outer edge.

Window Cleaner Set
GG-90247

The long, comfortable gripping handle allows you to maneuver into even the tightest of areas. You could even add an extension pole.

Washable Paper Towels
B182
These towels are incredible. They are lint free and clean windows to a streak free finish. Best of all, you can wash and line dry them and re-use them up to 50 times! Save money and achieve a cleaner, lint free installation with these economical towels. Must be pre-washed and line dried.

Speed Shine Microfiber Cloths
GG-11231 (Set of 3)
Ultra thick to cushion your paint and hold foreign objects deep in the nap so they're not dragged across your paint. They are also highly absorbent which aids in buffing out the Speed Shine®.

Microfiber Polish Removal Cloths
GG-11115 (Set of 3)
These 16" x 16" wedge shaped, non-abrasive micro fiber cloths lift and trap used polish away from the paint.

Microfiber Wax Removal Cloths
GG-11116 (Set of 3)
The non-abrasive, lint-free, wedge shaped micro fiber cloths lift and hold onto wax better than cotton. Capable of holding more wax, so you'll turn your cloth less often.

Equalizer Heatwave Heat Gun
A2901
Equalizer Heating Element
A2901HE
Compact, lightweight, easy to use and perfect for shrinking back windows. Temperature settings of 570°F and 1050°F.

Defroster Repair Kit
A4002
Quickly and easily repair damaged defroster lines with this one use kit. A must have for any auto tinter.

Note: This item cannot be shipped internationally.

Wagner HT3500 Digital Heat Gun
A2910
- Twelve temperature settings from 250°F—1350°F
- Ergonomic handle for comfortable grip and reduced fatigue
- Two fan speeds for optimum air flow control
- Cool-down and automatic shut-off setting to improve tool life
- 500 Watts / 5100 BTU

Kevlar Heat Forming Gloves
B2602 **(One Pair)**
For tinters who don't like to fry their hands with a heat gun while shrinking back windows.

4.5" Heavy Duty Suction Cup
A4003
Attach to outside of door glass and pull to create extra space between the gasket and the glass

Handy Man's OVE Glove
B2603 **(One Glove)**
A must have for heat shrinking. Withstands temperatures of up to 540°F. Nomex and Kevlar with an 80% cotton liner. This one-size-fits-all woven glove can be worn on either hand.

Infrared Wrap Heater
A2911
Quickly "post-heat" larger areas of vinyl to keep it from shrinking back to its original size after it cools and relaxes.

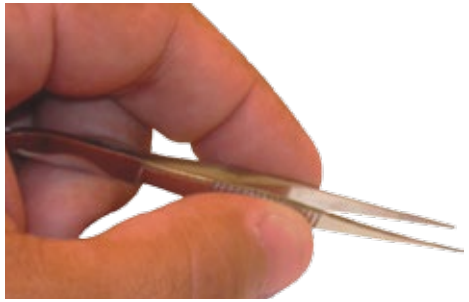
Infrared Replacement Heating Element
A2911HE

Wagner Portable On-Demand Steamer
J-915
This is the essential tool for the installation of paint protection film.
- 1500 Watts
- 8 foot Steam Hose
- 48 ounce tank
- Produces steam in 12 minutes

Steamers are an efficient and effective way to remove window film from rear windows, and are essential tools for paint protection film installations.

Steamblade
J4000W
Jiffy® Steamer's most powerful commercial model.
- Made in the USA
- Over 1.5 hours of steam per filling
- 1500 watt heating element

Jiffy Professional Steamer
J2W
This unit incorporates many of the same components found in our commercial grade steamer. Features a 7.5' hose.
- Quick 2-minute heat-up time
- 1300 watt heating element die cast in solid brass
- Impact resistant 1-gallon water reservoir
- Over 2 hours of steam per filling
- Made in the USA



Stainless Steel Tweezers
SSTW
Lift up the edge without leaving a fingerprint.

Stainless Steel Curved Tweezers
SSTWC
Lift film edges without leaving finger prints.

Stainless Steel Scissors
A2905S
Cut paint protection film with precision and smoothness with these economical scissors.

Black Paint Protection Squeegees
05517 (Size: 4” x 2.5”)
Paint protection squeegee.

Performax 5.5” Retractable Air Release Tool
A2600E
Sharp, fine point to pierce air bubbles left behind during tinting or paint protection film installations.

Hard Card Sleeve
71603
Used with any bondo card to allow them to slide smoothly. Primarily for paint protection applications.

Orange Rectangle Squeegee
71607 (Size: 4.5” x 2.75”)
Paint protection squeegee.

3M Air Release Tool
A2600
To help remove air bubbles created during paint protection installations. Replaceable tip and a durable metal design.

4” 3M Blue Bondo
A2300B
Can be used as an installation squeegee or wrap it in a soft towel to bump edges dry. Useful for either window film or paint protection film. Harder than the Gray Bondo A2300GR.

4” Black Smoothee
B204 (without handle)

Olfa SAC-1 Knife
A1912
This knife, along with the 7 pt blade gives you a very precise cutting edge for special situations. It works great for paint protection.

Olfa Carbon 7 pt Blade
B120 (10 Blades)
For use with Olfa SAC-1, #A1912 Knife. This 30 degree angle blade gives you a precise cutting edge. Ideal for paint protection film installation.

Olfa Scissors
A2907 7”
Olfa Scissors
A2905 5”

Olfa Art Knife AK-4
A1905
Precision art knife featuring Olfa’s exclusive HandSaver® cushion grip, quick-spin blade change, perfectly balanced design and an anti-roll device. Accommodates a wide variety of OLFA® art blades. Package includes (2) precision blades, (1) chisel blade and (1) curved carving blade.
GUARANTEED FOREVER!

Performax Installation Gel
M1130 1 Gal
Premixed paint protection installation aid for professional paint protection installers.

TINT SCHOOL

a whole new career field:
be a successful window tinter and a successful business owner!

- **Learn self promotion**
- **Help with setting up dealership**
- **Best dealer support in the industry**
- **Image appeal**
- **Technical support**
- **Continental breakfast and lunch**
- **Free tee shirt**
- **Hotel booking assistance**
- **Shuttle from hotel to class**

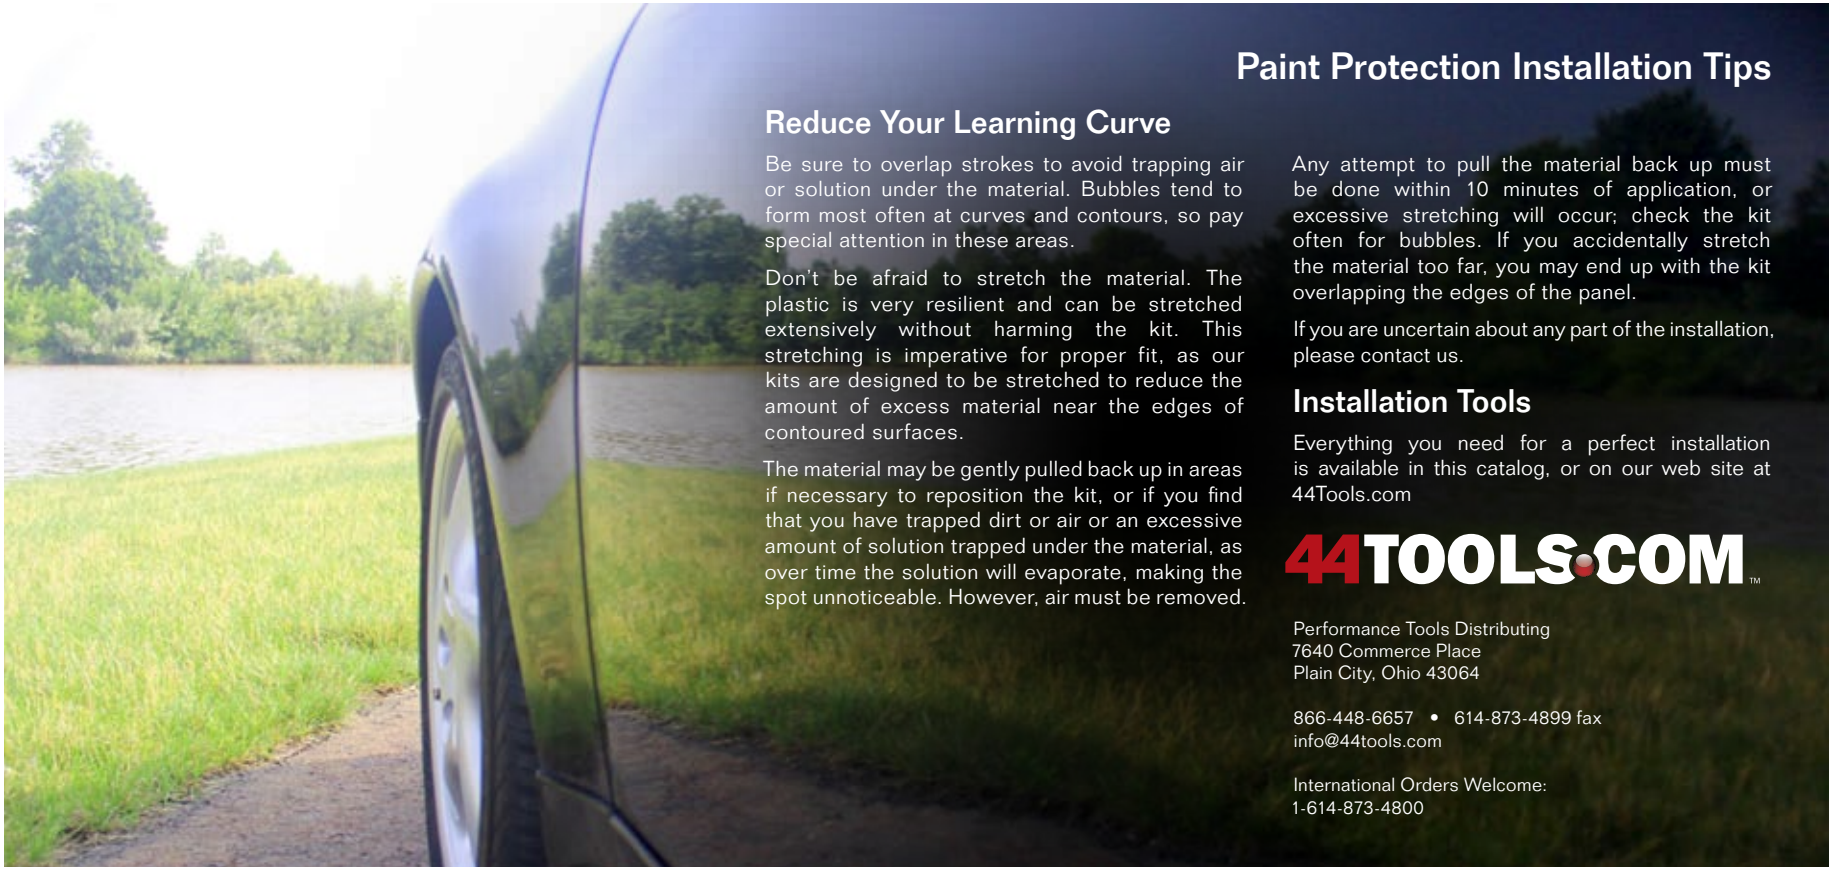
44Tools.com provides top of the line paint protection and headlamp products

Our paint protection offers superior value and high quality in today's confusing market. Couple a huge selection of high quality patterns with what we consider the best paint protection film in the world and a terrific warranty, you have a winning combination that can't be matched by any of our competitors!

Protection Products
Protect the leading edge of your customers' vehicles from rocks, gravel, salt or insects through the application of a thin and virtually invisible urethane film. This durable material has been used successfully for years by the military, various auto manufacturers, and NASCAR race teams in rock chip prone areas with incredible results. Products can be computer cut to ensure rapid and damage free installation.

Universal Headlight Kits
With the rising cost of replacement head lamps and fog lamps, it is nice to know that there is a product available to protect your car against the perils of the open road. Our Light Protection Products are made from a proprietary, scratch-resistant, urethane material coupled with strong optically clear adhesive. Designed for maximum durability, out light covers were originally tested under the harshest of circumstances with amazing results.

Door Edge Protection
Protect the door edges of your customers vehicles from chips and scratches with a protective strip. With easy to apply custom kits available in a variety of lengths, we have the right package available whether you have one, two or 100 cars to protect. If you have other areas you would like to protect, you can also order bulk material by the foot.



Paint Protection Installation Tips

Reduce Your Learning Curve

Be sure to overlap strokes to avoid trapping air or solution under the material. Bubbles tend to form most often at curves and contours, so pay special attention in these areas.

Don't be afraid to stretch the material. The plastic is very resilient and can be stretched extensively without harming the kit. This stretching is imperative for proper fit, as our kits are designed to be stretched to reduce the amount of excess material near the edges of contoured surfaces.

The material may be gently pulled back up in areas if necessary to reposition the kit, or if you find that you have trapped dirt or air or an excessive amount of solution trapped under the material, as over time the solution will evaporate, making the spot unnoticeable. However, air must be removed.

Any attempt to pull the material back up must be done within 10 minutes of application, or excessive stretching will occur; check the kit often for bubbles. If you accidentally stretch the material too far, you may end up with the kit overlapping the edges of the panel.

If you are uncertain about any part of the installation, please contact us.

Installation Tools

Everything you need for a perfect installation is available in this catalog, or on our web site at 44Tools.com
